Note

on Kolar Deputy Com
decision (No: 1694/14 14
18th October 1901 re "P
fuel for jaggery mak

The representation
the Kolar members in
October 1899 was that
obligation imposed up
the ryots of taking out
free license for firewo
required for jaggery
making, should be remo
by government reply wa
that the representation
would be referred to

the Deputy Commissioner for disposal) under para 9 of (Notification) No: 1483 dated 25th October 1888 relating to the cutting and removal) of firewood) by ryots exempted from obtaining free licenses therefor when required) for their bonâfide private use).

2. (The Deputy Commissioner was asked) by this office to communicate the order passed by him in the matter. He responded by sending a copy of (Cir: dated 8th September 1901 issued) to his Amildars

drawing their attention to
the previous Circular of 1896
and restricting them to
grant free licenses only
for the kinds of fuel
referred to therein, viz.
Bandare, thorns & shrubs
and at the rate of one
cart-load for every 2,000
sugar-canes. He further
sent as requested a copy
of his Circular of 1896
which also imposes the
same obligation.

3. Section 9 of the new
District Forest Rules
since issued (Gazette 19
does not prescribe the
above Condition or limit
nor are the rates

required to obtain free permits for wood (not of the reserved & classified as well as that used for house-building) or thorns growing on all unreserved land required for agricultural or domestic use by the inhabitants of that or neighbouring villages.

4. Should not the Deputy Commissioner's attention be invited to the above for the issue of revised orders consistently with that Section?

(Sd) L. R.

(Manufacture of jaggery is a paying concern and I am not sure if it could be strictly agricultural use; and unless some restriction is imposed the fuel supply in the neighbouring unreserved lands will not stand the drain and the privileges conceded will be abused.

(Sd) B. H.

(This is an important question which I have had often in mind since joining the State.

I cannot think that

6

sugar or arrack - cane boiling can properly be included in the term agricultural operations; and it seems to me that, in the interests of forest conservation, the question of prices to be charged for wood required for such boiling as well as for wood required for iron and glass smelting purposes should be reconsidered.

(At present the rules allow of great destruction. Immense quantities of wood are required - Supplies are obtained at almost nominal

prices. There is great
waste and the profits
(at least in the case of
sugar and areca-nut)
are high. Whole-forests
have been destroyed in
connection with smelting
(Vide Early History of
Forests (Administration
in (Mysore)); and wood
for sugar-boiling is
getting dear in some
parts.

(I am confident that
the entire question ought
to be reconsidered and
placed on a proper
footing. But in present
circumstances I certainly

do not propose to lay the case before Government. (My successor may, if he chooses, do so.

J. L. Pyper

Camp Seleshore
18th November 1911

The rules framed by Government under Section 35 of the Mysore Forest Regulation for the management of District Forests are identical with those issued by the Government of Madras.

The question of levying seigniorage on fuel removed from District Forests for

such purposes as jaggery
boiling, iron-smelting &c
was raised in Madras so
years ago and it was held
by that Government that
the industries referred to
do not come under the term
"agricultural or domestic"
and that the usual fees on
be levied. Apart from
this, I consider that in the
interests of forest conservan
and of those who do not
pursue these industries tha
some restriction should be
imposed on the wasteful
exercise of the privileges
granted under Rule 9 of
the rules framed under
Section 35 of the Forest
Regulation; and the best

mode of effecting this check, seems to me, is to treat persons engaged in these industries as ordinary traders or non-agriculturists. If this is not done, the gradual but certain denudation of the present scantily covered areas is inevitable, which will affect not only the manufacturers of sugar &c, but also their less fortunate brothers

3.1.02.

Submitted to the 2nd Councillor for orders.

I shall be glad to discuss this important question with the Hon'ble Member whenever he can find it convenient.

The 2nd Councillor.

Mr Stevens discussed the question with you and your orders are now solicited on it. I would suggest that the opinions of the Collectors may be obtained as regards the advisability of levying shipping fees on wood used by the sugar manufacturers &c - and that he be asked to state the practice obtaining in their districts.

24.2.02.

I have gone carefully through all the old
records regarding the right of artisans
and sugar cane juice boilers to take juice
free of charge, and find that the privile
has been recognized from the earliest time
The artisans have however, to take out free
permits while Kanderayan payinġ ryots hav
been exempted from this liability. The ques
now is whether this concession should
continue in the case of jaggery manufa
who consume a very large quantity of
fuel and cause much denudation;
whether in the interests of those who alone
pursue this lucrative industry some
restrictions should not be imposed
in the free use of fuel. It seems to me some
restriction is necessary otherwise the
whole village body will suffer owing
to the wasteful exercise of the privileges of
these favoured few. During my last
tour in the Kolar district the denudat
of village and district-forests was noticed
everywhere, and in many localities the
jaggery manufacturers have been forced
to resort to the State forests to obtain
their supplies. It is the large body of
poor ryots and agricultural labourers
who can ill afford to pay the license fee

that all suffer much from the wholesale
cleaning of the village ponds. The only
effective way of checking this is imposition
of a small fee on all fowl removed for
the purpose. I would fix the fee at half
the rate applicable to traders. Before known
taking action on this suggestion I would
call for the opinions of the Dy. Commrs
on the subject & if the proposal commends itself
the Committee.

14.4.02.

To the Legal Committee.

Recd
14-4-02

As at present advised, I am of opinion that
the word "agricultural"
nor "domestic" [illegible]
exception of any kind in consequence
called for. However,
please get the opinions
of all the Dy. Comrs
in regard to a
definite ruling being laid
down once for all.

18/4/02

Call for the Opinion 18/4/02
of the Dy Comrs
as to the liability of poultry
manufacturers to take out paid
licences for fowls removed
& taken for [illegible]

18.4.02

Let me see draft.
18/4/02.

Subd with draft
as
21.4.02

Note continued

& 710 (b)

Draft issued Vide N° 758-
3943-
dated the 28th April 1905

The Dy. Commr of
Kolar proposes a seigniora
of 6 as on a cartload of
fuel and the Dy. Comm
of Shimoga proposes
4 annas. The Dy Comm
of Bangalore thinks tha
seigniorage should be
levied but does not fix
the rate. The Dy. Comm
of Kadur suggests that
seigniorage should be
levied only when sugar
cane is sold by the ryo
to a third party for
manufacture and sale
of jaggery. The Dy
Commrs of Chitaldroo
Mysore, Shimoga and
Hassan are for the

free issue of fuel. In
support of their views
they state that what the ryots
earn by the sale of grass only
will simply compensate for
the loss sustained by the
poor crop of paddy or ragi
harvested, while for the
remainder the ryots are
paying a heavy kandayam
plus kallak and cannot
afford to pay for fuel also
The Dy. Conservator of Shemoga
concludes his letter by remarking
that the recent forest policy,
under which many of the
timber trees hitherto enjoyed
by the ryots free of charge
have been brought under
classified kinds, needs time
to reconcile the ryot population
to it, and that it would be
premature to consider
the question of taxing
firewood as proposed
in the Madras Despatch

The D^t^ Commissioners of
Kolar Tumkur and Bangalo
are strongly in favour of levyin
Requisition fees on fire wood
removed from R.F. forests for the
purpose of manufacture of jaggr

The Dy. Commr. Kadur reports
that hardly any fire wood is
employed in the manufacture
of jaggery in his district and
as regards the Mysore district
suggests that when the sugar cane
grower sells the produce to
a third party for the manufact
of jaggery, the latter may
properly be charged requisitio
fees for fire wood consumed
by him.

As to assessment he says, that
it is not desirable to lay additio
burdens upon owners of garden
in view of the heavy burdens

already laid upon them in the shape of Kandayam and Khalat.

The Dy. Commr. Hassan states that there is very little demand for fire wood from Govt. lands in his Dist. the ryots satisfying their requirements from occupied lands.

In the case of peasant, he says, that fuel must be supplied free in the case of agriculturists, but recommends the levy of a small fee in the case of traders

The Dy. Commrs. of Mysore, Shimoga and Chitaldrug are not in favour of levying any fees. The Sub-civil Officer French Rocks is of opinion "That the levy of peripherage on firewood

required for the purpose of manufacturing sugar & boiling are a matter is reasonable and necessary".

V. Venkatarama
20.10.02

To The Secretary Committee

7K.46/20-10-02.

(1) Sugar & area boiling.

On further consideration I am of opinion that this Precept cannot be said to be wholly non agricultural. A by-product grown by cane but what is the Board entitled to exercise control as such funds are ready Sale? It cannot have to be turned into sugar which alone can be said to be "produce" for which there is a market. The same observation applies to area. That being so I cannot demand to require from land for the purpose of manufacturing sugar & boiling area. Further required for the operation which alone can

Man Kuyan came & sawa
~~[illegible]~~ not a marketable

Kolar District, to the Conservator o
Forests in Mysore on the subject
issuing free passes to take fuel
manufacturing jaggery.

Notes dated 18th November
and 3rd January 1902, by Mr. Pig
and Mr. Muthannah, Conservator
Forests and officiating Conserva
respectively on the same subje

Order thereon. NO: 753-6
dt/ 28th April 1902. 3943-60

In the Dasara Representa
Assembly held in October 1899
member from Kolar requested
that ryots may be allowed to t
fuel for the preparation of jagg
without their having to take
a license therefor. The member
informe

purpose is taxed in the same way a
that remains for sale.

3. The privilege of removing fue
by Sugar cane juice boilers free o
charge has been long recognise
in the State, but is believed to h
been greatly abused, so much so,
that in many places the people
have been forced to resort to
State Forests to obtain their suppl
by reason of the complete denu
-dation of the district forests. I
order to save these district forest
from further deterioration and
the interests of those who do no
pursue the lucrative industries
referred to it seems necessary
impose certain restrictions upo
the exercise of this privilege. The
most effective remedy would be
to treat the jaggery manufacture
and areca-nut boilers as ordina
traders and to levy the usual
dues on the fuel consumed by t
as in Madras. Before, however,
introducing so sweeping a change
th

the Government would desire to have the views of the Deputy Commissioners in the matter, which they are requested to submit as early as possible.

(1) Jaggery & arecanut boiling.

On further consideration I am of opinion that this concession cannot be said to be wholly non agricultural. A ryot grows sugarcane and what is he to do with it unless he can get as much funds as ready cash? It cannot be turned into jaggery which alone can be said to be "produce" for which there is a market. The same observation applies to arecanut. That being so I cannot demand no payment from those who agriculturists for purposes of fuel for the operation which alone can

The D^y^ Commissioners of Kolar Tumkur and Bangalore are strongly in favour of levying royalty fees on fire wood removed from the forests for the purpose of manufacture of jaggery

The Dy. Commr. Kadur reports that hardly any fire wood is employed in the manufacture of jaggery in his district and as regards the Mysore district suggests that when the sugar cane grower sells the produce to a third party for the manufacture of jaggery, the latter may properly be charged royalty fees for fire wood consumed by him.

As to assessment he says, that this not desirable to lay additional burdens upon owners of gardens in view of the heavy burdens

already laid upon them in the shape of Kandayam and Khalat.

The Dy. Commr. Hassan states that there is very little demand for fire wood from Govt. lands in his Dt. the ryots satisfying their requirements from occupied lands.

In the case of meeamut, he says that fuel must be supplied free in the case of agriculturists, but recommends the levy of a small fee in the case of traders.

The Dy. Commrs. of Mysore, Shimoga and Chitaldrug are not in favour of levying any fees. The Sub-divl Officer French Rocks is of opinion "That the levy of peiquiwage on firewood

Note continued

Exh (b)

12

Draft issued Vide No. 755-62
3943-50
dated the 28th April 1902

The Dy. Commr of Kolar proposes a seigniorage of Rs. 10 on a cartload of fuel and the Dy. Comm. of Tumkur proposes 4 annas. The Dy Comm of Bangalore thinks that seigniorage should be levied but does not fix the rate. The Dy. Commr of Kadur suggests that seigniorage should be levied only when sugar cane is sold by the ryot to a third party for manufacture and sale of jaggery. The Dy. Commrs of Chitaldrug, Mysore, Shimoga and Hassan are for the

free issue of fuel C. In
support of their views
they state that that the ryots
earn by the sale of jaggery
will simply compensate for
the loss sustained by the
poor crop of paddy or ragi
harvested, while for the
areca nut the ryots are
paying a heavy kandayam
plus kattak and cannot
afford to pay for fuel also.
The Dy. Conservator of Shemoga
concludes his letter by remarking
that the recent forest policy,
under which many of the
timber trees hitherto enjoyed
by the ryots free of charge
have been brought under
classified kinds, needs time
to reconcile the ryot population
to it, and that it would be
premature to consider
the question of taxing
firewood as proposed
in the Madras Despatch

I have gone carefully through all the old records regarding the rights of artisans and sugarcane juice boilers to take fuel free of charge, and find that the privilege has been recognized from the earliest times. The artisans have however, to take out free permits while Kanderayan payingryots have been exempted from this liability. The question now is whether this concession should continue in the case of jaggery manufacturers who consume a very large quantity of fuel and cause much denudation; and whether in the interests of those who depend for pursue this lucrative industry some restrictions should not be imposed in the free use of fuel. It seems to me that some restriction is necessary otherwise the whole village body will suffer owing to the wasteful exercise of the privileges by a few. During my last tour in the Kolar district the denudation of village and district forests was noticeable everywhere, and in many localities the jaggery manufacturers have been forced to resort to the State forests to obtain their supplies. It is the large body of poor ryots and agricultural labourers who can ill afford to pay the license fees

A2

the total suffer ment from the wholesale
cleaning of the village ponds. The only
effective way of checking this is imposition
of a small fee on all fuel removed for
the purpose. I would fix the fee at half
the rate applicable to traders. Before however
taking action on this suggestion I would
call for the opinion of the Dy. Commrs
on the subject & if the proposal commends itself
the Committee.

mode of effecting this check, seems to me, is to treat persons engaged in these industries as ordinary traders or non-agriculturists. If this is not done, the gradual but certain denudation of the present scantily covered areas is inevitable, which will affect not only the manufacturers of sugar &c, but also their less fortunate brothers.

3.1.02.

Submitted to the 2nd Councillor for orders.

The 2nd Councillor.

Mr. Hume discussed the question with you and your orders were solicited on it. I would suggest that the observations of the Mrs may be obtained as regards the advisability of levying a cess on wood used by sugar manufacturers &c - and that he be asked to state the practice obtaining in their districts.

24.2.02.

I shall be glad to discuss this important question with the Mukhtarnama when he would find it convenient to call on me on Monday after his return from Jeypore

such purposes as jaggery-
boiling, iron-smelting &c.
was raised in Madras some
years ago and it was held
by that Government that
the industries referred to
do not come under the term
"agricultural or domestic",
and that the usual fees may
be levied. Apart from
this, I consider that in the
interests of forest conservancy
and of those who do not
pursue these industries there
some restriction should be
imposed on the wasteful
exercise of the privileges
granted under Rule 9 of
the rules framed under
Section 35 of the Forest
Regulation; and the best

do not propose to lay the
case before Government.
(Any assessee may, if
he chooses, do so.

J. L. Pyott

(Camp: Seleshere)
18th Nov 19[illegible]

The rules framed
by Government under Sec-
tion 35 of the Mysore Forest
Regulation for the manage-
ment of District Forests are
identical with those issued
by the Government of Madras.

The question of levying
seigniorage on duly removed
from District Forests for

prices. There is great waste and the profits (at least in the case of sugar and arrea-nut) are high. Whole forests have been destroyed in connection with smelting (vide Early History of Forest Administration in Mysore); and wood for sugar-boiling is getting scarce in some parts.

I am confident that the entire question ought to be reconsidered and placed on a proper footing. But in present circumstances I certainly

sugar or areca-nut boiling can properly be included in the term agricultural operations; and it seems to me that, in the interests of forest conservation, the question of prices to be charged for wood required for such boiling as well as for wood required for iron and glass-melting purposes should be reconsidered.

(At present the rules allow of great destruction. Immense quantities of wood are required - Supplies are obtained at almost

(Manufacture of jaggery is a paying concern and I am not sure if it could be strictly agricultural use; and unless some restriction is imposed the fuel supply in the neighbouring unreserved lands will not stand the drain and the privileges conceded will be abused.

(Sd) B. H.

(This is an important question which I have had often in mind since joining the State.

I cannot think that

required to obtain free permits for wood (not of the reserved classified as well as that used for house-building) or thorns growing on all unreserved land required for agricultural or domestic use by the inhabitants of that or neighbouring villages.

4. Should not the Deputy Commissioners attention be limited to the above for the issue of revised orders consistently with that Section?

(Sd) L. N.

drawing their attention to
the previous Circular of 1896
and restricting them to
grant new licenses only
for the kinds of fuel
referred to therein, viz.,
Bandare, thorns & shrubs
and at the rate of one
cart-load for every 2,000
sugar-canes. He further
sent as requested a copy
of his Circular of 1896
which also imposes the
same obligation.

3. Section 9 of the new
District-Forest Rules
since issued (2nd Oct. 1901)
does not prescribe the

fuel for jaggery making".

The representation of
the Kolar members in
October 1899 was that the
obligation imposed upon
the ryots of taking out a
free license for firewood
required for jaggery
making, should be removed.
Government reply was
that the representation
would be referred to

Sl 11. From the Dr C. Bangalore Dist.

No. 1106 Dt. 7-6-02.

States that Jaggery manufacturers should be treat
as ordinary traders, subjected to payment of sei
niorage on the firewood used in Jaggery making.

Sl 12. From the Dr C. Tumkur District.

No. 4 Dt. 1-7-02.

States that a seigniorage of Rs. 0-4-0 per cart be leve
on all firewood used for the purposes.

Sl 13. From the Dr C. Mysore District.

No. 27 Dt. 8-7-02.

Recommends the levy of a smaller fee than tha
levied on fuel removed for sale.

Sl 14. From the Dr C. Kadur District.

No. 86 Dt. 14-7-02.

Forwards copies of letters of the two Assistant Comm
and the Dr T. O. re the levy of seigniorage on firew
removed for boiling Arecanut and making Jaggery.

Sl 15. From the Dr C. Mysore District.

No 78 Dt 22-7-02.

Forwards copy of letter No. 25 Dt 8-7-02 from t
Sub Division Officer, French Rocks, submitting h
opinion on the levy of seigniorage on firewood
removed for jaggery making.

Sl 16. From the Dr C. Shimoga District.

No. $\frac{223}{4}$ Dt. 9-9-02.

Forwards a memo containing the opinions of the
Officers in the District re the levy of seigniorage on f
wood removed for making Jaggery ——

Sl 17. From the Dr C. Shimoga District.

No. $\frac{225}{5}$ Dt. 11-9-02.

Forwards some communications from officers in the District containing their opinions on the levy of seigniorage on firewood for manufacture of Jaggery and boiling Arecanut.

Sl 18. To the Dr C. Hassan Dist.

No. 1693 Dt. 29-9-02.

Requests to expedite despatch report re fuel for jaggery making and requests to remit 9 as. being the telegram charge.

Sl 19. From the D. C. Hassan District.

No. 107 Dt. 3-10-02

States that the report was delayed on account of business such as plague and Councillor's arrival &c.

Sl 20. To the Dr C. Hassan District.

No. $\frac{268}{2053}$ Dt. 22-10-02

States that the telegram charges need not be remitted to that office.

Sl 21. From the Dr C. Hassan District

No. 97 Dt. 1-10-02

States that there has not been a practice of the kind in the District of levying seigniorage on firewood removed for making jaggery.

Sl 22. To the Deputy Commissioners of Districts.

No. $\frac{319-26}{2502-9}$ Dt. 11-11-02

Observes that the Govt. are not at present disposed to levy any seigniorage on fuel required for jaggery making, iron-smelting and arecanut boiling.
